## COVID 19 / PPE

As most of you are aware, we have seen an increase recently in the number of employees at CPC having contracted COVID-19.

The Association wants all of you to remain vigilant during this Pandemic. Do not be complacent, do not let your guard down it only takes a momentary lapse in judgment that could affect you or your family for life.

The Association has purchased masks from a Canadian Company in Montreal who has worked with us to ensure they will be delivered directly to each of the Branches across the Country. These are high Quality 3 ply masks with adjustable ear bands. There will be enough for two mask per member, one Navy and the other Black.

These orders will be shipped out in the coming weeks to the Branches.

Upon receipt of these packages, we request the Branch Presidents to please **notify** your **DVP** and copy **Michael Ling** and **Rick Williams** on your email so we can ensure delivery has been received.

*Please Stay Safe.*
